Admin guide — what you can change without touching code

Sign in at `/en/admin` with the `ADMIN_EMAIL` address (emailed one-time code). The super admin can add **Dispatchers** (operations only) and **Admins** under *Users & staff*.

I want to…	Where
Rename the brand, change logo/colors, tagline, social links	Settings → **Brand** (updates site, emails, invoices, SMS, contracts, favicon, PWA name instantly)
Change phone numbers, emergency number, email, office address, hours	Settings → **Contact & address**
Set GSTIN, PAN, SAC code, GST %, invoice/booking prefixes	Settings → **Business, GST & invoicing**
Change night/surge multipliers, cancellation fee, default commission	Settings → **Pricing rules**
Tune dispatch radius, offers per round, timeouts, scheduling	Settings → **Dispatch**
Turn Razorpay on/off ("coming soon" ↔ test ↔ live), cash payments	Settings → **Payments**
Switch OpenStreetMap ↔ Google Maps, map tiles, default centre	Settings → **Maps**
Choose who gets emails/SMS, ops alert address	Settings → **Notifications**
Add/remove a service or vehicle type, edit text in English + Hindi	Catalog → **Services / Vehicle types**
Change prices	Catalog → **Rate cards** (₹ per vehicle × service: base, included km, per km, minimum)
Add a locality or an NCR city (active vs coming soon, radius)	Content → **Service areas**
Edit FAQs, testimonials	Content → **FAQs / Testimonials**
Edit Terms, Privacy, Cancellation, Grievance, partner overview	Content → **Legal pages** (Markdown, EN + HI, placeholders like `{{brand}}`)
Edit the partner agreement text (driver / fleet company)	Content → **Contract templates** (bump the version for new terms; old signed copies stay unchanged)
Approve / reject partner applications, set commission, suspend	**Partners**
Manually assign a driver / cancel / retry dispatch	**Bookings → open booking**, or the **Dispatch board**
Settle partner payouts	**Payouts & ledger** (select entries → enter UTR/reference → mark settled)
See who changed what	**Audit log**; emails/SMS sent → **Notification log**

Partner onboarding (what happens)

1. Partner applies at `/en/partner` → appears under **Partners** as *Pending*.
2. You review, set commission %, click **Approve & send agreement** → the personalised agreement is generated from the active template and emailed.
3. Partner signs in the driver app / partner portal, reads the agreement, types their name and confirms with an emailed code → account becomes **Active**.
4. Companies add their own drivers and trucks; when a booking is assigned to a company's driver, **both the driver and the company are emailed**.

Money flow cheat-sheet

- Customer pays total = taxable fare + 18% GST (editable).
- Platform commission = % of the **taxable fare** (per-partner override → company → default).
- *Cash jobs:* provider keeps the cash and owes you commission + GST collected (shown as "Providers owe platform").
- *Online jobs (Razorpay):* you hold the money and owe the provider's net (shown as "Platform owes providers").
